When I began Pious Projects in 2015, I had faith in its potential, but I did not expect it to achieve the growth and success it has today. Looking back at some of our most fruitful campaigns, I am humbled to say that not only did we exceed our goals, but we are on the path of an even more positive future. We have been blessed with a team of hard working individuals and generous donors that keep our projects going; from 500 water wells being built in Mali, to providing over 500 people the ability to see for the first time, to countless meals distributed all over the world. These are blessings that the average person takes for granted, but can mean the world to someone less fortunate. Being able to make a difference in the lives of others is the least we can do to give back and show gratitude to Allah for all that He has given us. With our unique platform, 100% of donated money goes exactly where it was intended. By the will of Allah, we will reach our \$5 million mark by the end of 2017. As director of Pious Projects, I am inspired daily by our growth and our ability to make a positive impact in the world we live in. I hope you are just as inspired and motivated. With your help, we can fulfill our charitable duties in the eyes of Allah and make this temporary world a better place for all.

MOHAMED
ZEYARA

Many great memories come to mind when reflecting on this year's accomplishments. One in particular was when we first entered Pious Project's Orphanage construction site. I was lost in words. Witnessing the beginning of a project that once was nothing but an idea. Seeing hands from different ethnicities working together to build this complex. I was hopeful for more change and thankful for God's mercy. Later on that day, we toured around villages that received a water well from our generous donors. Local villagers came out to show their appreciation to Pious Project's team. Gifting us from the little they have, such as, chickens, goats, magical beans, and rice. It is always fascinating seeing how far the small donations spread. It's been three years since we started the fight against the water crisis in Mali. Today, more than five hundred water wells stand firm with the blessings of God. To our donors, thank you for your trust and support.

These projects motivated youth to bring forth their humanitarian project ideas, and to allow us help them achieve these goals. We provided online campaign pages and a base of donors looking to support. Their projects inspired them and others to continue this admirable path. I am certain and hopeful for yet another year filled with blessed projects, and achievements inshallah.

JUMANA
EL-AMMORI

Nonprofits organizations hold key importance in our thriving communities and society as a whole, and I've never been so humbled to be a part of its growing role. Years before joining Pious Projects team, I was just a donor who believed in the work that Pious Projects does. I stumbled upon Pious Projects on Facebook and from that day forward, I never gave my dollars to another organization. There are over 1.5 million nonprofits in the US alone, but one thing that drew me towards Pious Projects was its transparency. I had full confidence that every cent I donated went towards where I intended it, and the projects yielded substantial results. This feeling is what pushed me to do more, because I knew I was capable of getting more people involved. I never expected it, but a couple years later, I was the first official employee of Pious Projects. I've been here for almost a year now, and the excitement that I had on the very first day remains with me. I wake up every day knowing that the result of my work can help thousands of people. Not only has my position been a rewarding experience, but an incredible learning experience as well.

Inshallah in the coming years, I hope to push Pious Projects to be the best model organization for non-profit work. I know we have the power to change the lives of thousands of people. We have the capacity to really make a difference and it's up to us to open the avenue for donors and volunteers to join us.

VOLUNTEERS

KARUM
ABDURRAHMAN

“O people, exchange greetings of peace, feed people, strengthen the ties of kinship, pray when others are asleep, you will enter Jannah in peace.” – Prophet Mohammad

These are the wishes of our beloved Prophet -Prayers and Blessings Upon Him- in which he prescribed upon us so that we may bring benefit to ourselves and others in this life and the next. This year we were fortunate enough to be blessed with the opportunity to fulfill one of his wishes through Feed The Hungry, where over 3000 meals were prepared and distributed locally, while contributing to a total of 20000 meals nationally. Leading the event was by far one of the most demanding and rewarding experiences I’ve been through. It was a great opportunity to learn how to react under pressure and direct a full team of staff and volunteers. Looking back, it was the sense of being a part of a greater cause and the responsibility that it entailed which provided us with the drive to make the event happen. On behalf of the core team I would like to thank The Ohio State University and our volunteers for making this incredible project possible and a special thanks to Pious Projects for orchestrating this nationwide campaign. Three weeks was all it took to form bonds with brothers and sisters that would last a lifetime. We ask Allah -Glorified and Exalted Be He- to reward us all and grant us further opportunities to serve our communities.

Praise be to Allah

OKAB
HASSAN

Peck Elementary School is a Pre-K through 4th grade school that services approximately 1000 students. Peck is located on the southwest side of Chicago in the West Elsdon neighborhood. We are a neighborhood school committed to meeting the needs of our students, families, and community in a holistic manner. After noticing a large amount of our preschool to 4th grade students did not have proper winter clothing to keep them warm during their walks and CTA rides to and from school, we launched a campaign that supported our Warm Up the Children of Chicago initiative. Pious Projects of America was alarmed by the amount of kids in need in their own city and partnered with Peck School and in just one day, raised \$5000 overnight and donated 2000 sets of hats and gloves along with over 450 new coats to warm up our children of Chicago. The donation provided more than coats, hats, and gloves for our students; it provided relief and peace of mind for parents, inspiration to a community, and a pure example of good heartedness. Not only did Pious warm up the children of Chicago but they warmed our hearts with their generosity, kindness, and cognizance! Thank you for helping our children, our community, and our city!

Okab Hassan-Peck Elementary Principle

LEAD VIDEOGRAPHER

SEIF
YOUSSEF

Filmmaking has the power to be used for any purpose. From sharing a simple story, to bringing down unjust regimes. The ability to touch all of an individual's senses, provoke them mentally, emotionally, and physically leave the creator with power that was never even an idea just a couple centuries ago. Its ability to do such has paved a path of innovation and development for many fields, especially non-profit work and social activism.

Millions of dollars have been raised, and millions of lives have been changed using film, but a plateau has been reached, the same content and stories are being recreated and reshared with a faulty assumption that the emotions, effects, and actions created once before will be again. Backlash to the bombardment of film created for this purpose is starting to be prevalent. Naive as it may be, the desensitization of our society to life outside our own will lead to the death of fulfilling our responsibility to the world.

I make films to investigate culture, explore transformational moments, unearth valuable stories, and question traditional paradigms. I create narratives that lead to more questions - that ask audiences to look at their own beliefs and histories with a new curiosity. My films are about emotional journeys, personal transformations and social movements. When making cross-cultural documentaries, I expose problematic elements, such as the privilege and power of the filmmaker.

I bring out the tension between the cultural norms we are used to seeing and the representation of what is usually hidden or untold. Rather than trying to shock audiences, I attempt to unveil potential connections to the characters or the story, creating a new view of their own lives.

Through empathy my audience experiences a journey as if in a first person perspective. The emotions of the protagonists become the emotions of the audience. The ideas I'm proposing become ideas created in the minds of the audience as if they were their own.

FOOD & WATER

Clean Drinking Water for an Entire Village

For over two years, we have been raising funds to build wells in one of the most impoverished areas of the world, specifically Mali, Africa. This essential campaign saw great success in 2017 and we were able to build 130 wells, with a total of over 500 wells since the start of our program in 2016. These results mean that thousands of people now have access to something as basic and fundamental as clean drinking water.

The rewards of such a campaign are best summarized in a hadith which reports that the Prophet (peace be upon Him) said, **“Whosoever digs a well will receive reward for that from Allah on the Day of Judgment when anyone amongst jinn, men and birds drinks from it.”** (Al- Bukhari and Muslim)

Food Campaign for Mali, Less than \$1 a Day

For less than one dollar, you can help provide one person in Mali with meals for a day. That was the premise behind this crucial campaign, and we are so humbled by the generosity of our donors. In 2017, we distributed over 150 containers of food, each containing enough rice, sugar, yogurt, dates and oil to feed a family of 10 for one month. In addition, \$10,000 was raised to ensure that villagers had Iftar available for the last 10 days of Ramadan. With the help of our sponsors and volunteers, we wish to continue our efforts in the hopes of offsetting the dire food situation that Malians face on a daily basis.

30 BASKETS OF FOOD DISTRIBUTED.
\$10,000 RAISED FOR IFTAR PACKAGES.

Feed Starving Families in Ethiopia

The people of Dire Dawa, Ethiopia face unimaginable devastation due to the current food crisis and ongoing drought conditions. These tragic circumstances caused the death of many villagers, as well as the livestock that was supposed to feed them. Our campaign was created as a way for us to do our part in finding a solution to end the suffering, as these occurrences cannot, and should not be ignored. For \$50, we are able to purchase the necessary nutrients to feed one Ethiopian family for a month. Food packages are distributed throughout the year, including during the holy month of Ramadan, which can prove to be especially difficult. In 2017, the Feed Starving Families in Ethiopia campaign brought relief to **over 525 families..**

Somalian Food Crisis

When the people of Somalia were faced with a horrific famine that left many starving, dehydrated and dying, we knew that we could not sit back and watch. We quickly launched an emergency effort to get as much food and water as possible to Rasso City, a region severely affected by the crisis. Our focus was on speed and efficiency, and with the help of our donors, we raised over \$85,000 in 2017, exceeding our original goal. As a result of your compassion, 14,802 meals were distributed to families in desperate need.

Rohingyan Muslims Need Food Aid Now

This campaign is administered by the Heroic Hearts Organization to help bring food aid to the Muslim Rohingya living in camps in the Rakhine State of Myanmar. Facing genocide, the Rohingya Muslims are living in desperate conditions. Besides the constant violence and fear that they face on a day to day basis, families in the camps experience nutrition shortages which bring them to the brink of despair. Thanks to your support, \$22,206.39 was raised in 2017. Over 140 baskets of food were distributed, which included staples such as rice, oil and lentils.

Food Support for Palestine

Heroic Hearts Organization initiated the Food Support for Palestine campaign to get much needed aid to the occupied people of the West Bank and Gaza. Palestinians are forced to live under inhumane conditions that restrict the flow of goods into their territories. But little food coming in is not the only problem; Palestinians are living amidst an economic disaster which means skyrocketed prices on many staple food items. Campaigns like this not only bring necessary aid, they also bring hope and light to a community in despair. In 2017, we were able to purchase over **105 food baskets** for Palestinians in need.

\$6,330 RAISED
FOR FOOD SUPPORT

Inside Syria-Emergency Food Aid

Sometimes a food item as simple as bread can bring great relief to a person in need. That is why the Heroic Hearts Organization launched this vital campaign, providing fresh bread and hot meals to families in internally displaced camps in Northern Syria, refugee camps in Lebanon, and other areas under siege. In 2017, 5 donors each generously sponsored a day at a bread baking facility. The average production per day was 3,500 pieces of bread. Additionally, over 200 food baskets were delivered and 100 hot meals were distributed.

200 HOT MEALS &
100 FOOD BASKET
DISTRIBUTED

Academy for Orphans in Africa

Knowledge is light, and Islam is the pathway to that light. With that in mind, we launched our fundraising campaign to build an Academy in Mali to bring hope and quality education to the underprivileged orphans of that region. The goal is to recruit top tier teachers and equip them with state of the art facilities to best serve the children and change their lives forever. Our plans for the Academy currently include a two-story building complete with a library along with science and computer labs. In addition to academic instruction that would incorporate various disciplines as well as Islam, this institution would house hundreds of children in need and provide them with the necessary food, shelter, and healthcare that would allow them to thrive for years beyond. Five acres of land have already been guaranteed for this project in the region of Sikasso, Mali. Our expenses for building the Academy are expected to be \$2M dollars and we are pushing to reach this goal every single day.

The total funds raised to date exceed over \$374,000. We would like to extend our deepest gratitude to all who donated. May Allah reward you in this life and the next. Be sure to check for updates on this ongoing project on our website.

**TOTAL FUNDS RAISED
OVER \$374,000**

ORPHANS

Feed an Orphan a Hot Meal

The Prophet Muhammad (peace be upon him) once said, **“I and the caretaker of the orphan will enter Paradise together like this, raising (by way of illustration) his forefinger and middle finger jointly, leaving no space in between.”** [Sahih al-Bukhari].

Since our very beginning, Pious Projects has strived to bring relief in as many forms as possible to orphans around the globe. This campaign in particular focused on providing hot meals to orphans during and after Ramadan. We are extremely pleased that in 2017, 1,575 hot meals were distributed to children as a result of this project.

**1,575 HOT MEALS
DISTRIBUTED**

Sponsor an Orphan for \$50 a Month

There is a reason that orphans are mentioned over 20 times in the Quran. The greatest rewards come from taking care of those who cannot care for themselves, and there is an emphasis in Islam on orphans in particular. We show mercy towards them and hope for Allah's (SWT) mercy in return. This is one of the driving reasons behind our Sponsor an Orphan for \$50 a Month campaign.

The affordable contribution gives everyone a chance to give back and earn rewards in the eyes of Allah (SWT). Larger annual sponsorships aim to provide children in need with the education, food, and shelter they need for an entire year. In the past year alone we have garnered 16 of these yearly sponsorships through the kindness of our generous supporters. Our campaign total so far has reached nearly \$50,000. Each and every donation has helped to make a difference in the lives of children who otherwise would go without the basic necessities we take for granted. All funds raised in this program go directly to orphans in countries which include Mali, Chad, Syria, Palestine, Turkey, & Jordan. Thank you all for your efforts in making this world a better place for those who truly need it the most.

Udhiyah/Qurbani 2017

There is great reward in the privilege of participating in an Udhiya/Qurbani at the end of Hajj. We are proud to have been able to facilitate this opportunity for people all over the world on both ends: giving and receiving. In 2017, we completed over 1000 shares of Eid al Adha Udhiyas/Qurbanis in the following countries:

Bangladesh	Mali	Mauritania	Burma
Burkina Faso	Niger	Pakistan	Senegal
Central African Republic	Somalia	South Sudan	Syria
Ethiopia	Yemen	Ghana	Kenya
India	Malawi	Uganda	Zimbabwe

Udhiyah Any-time, Anyplace

This year-round Udhiyah/Qurbani campaign allowed us to distribute to Syrian refugees and the underprivileged in countries such as Mali, South Sudan, Syria, Somalia/Ethiopia, Central African Republic and Mauritania.

Alhamdulillah with your help, we were able to supply many people with a necessity that they don't always get to enjoy.

SMALL BUSINESS

Give Tools and Seeds to Create Sustainability

Self-sufficiency is one of the greatest gifts you can give someone, and that is exactly the goal of this campaign. After a horrific genocide left many men murdered, the surviving refugees of N'djamena, Chad were left to struggle without adequate means of survival. The donations to this campaign were used to purchase a cow, a plow, and seeds; tools that gave the villagers a way to live off the land. A society of 10 families working together can use these supplies to help ease the worry of finding their next meal.

Donkey Carts

Donations from this campaign were used to purchase two donkeys, which are vital animals to villagers, especially for those who live in remote locations. The donkeys offer a way for people to transport clean water to areas that lack access to such. The animals are also used as a method to travel to the jungle in order to fetch firewood, which is then sold for a profit. Finally, they provide a useful means of transportation in general, such as taxis to get around, or even an ambulance in emergencies.

COMMUNITY

Back to Mali - Al Najwa

Our first trip to Mali, Africa was over a year ago, and our main mission then was to give the villagers access to clean drinking water and supply them with functioning prayer centers as well as medical centers. We released a documentary on our experience and set up our original Mali campaign, called Al-Najwa Village. After launching the Al-Najwa Village campaign, we ended up surpassing our goal with amazing success Alhamdulillah!

The work was not over after that, though. Once we returned to the United States, we assessed the situation of the communities we visited and came to the conclusion that there were a few key necessities that were still lacking. In 2017, we traveled back to Mali with a new goal to focus on one of those key necessities: education. Once again, we released a documentary and launched a campaign, and our generous donors did not disappoint. Enough money was raised to build masajid, classrooms, desks, and sponsor orphans. We hope to keep this campaign constantly running inshaAllah!

GainPeace - Dawah Outreach

GainPeace, in conjunction with Pious Projects, launched this campaign dedicated to raising awareness and spreading the knowledge of Islam. Making the truth about Islam widespread is vital in combating the negative image that the media portrays about Muslims. Funds raised were used to highlight the truth of our religion via billboard ads, commercials, and bus ads. Funds also went towards an Islam hotline, "new Muslim" care packages, and free Qurans.

Nabra Hassanen

Nabra Hassanen was only 17 when she was assaulted and murdered in Ramadan walking to her local masjid in Fairfax County, VA. To honor her memory, and to help her earn good deeds beyond her grave, we asked for your help in building a water well in her name. Nabra's story touched so many that the response to this campaign was overwhelming. Enough money was raised to build 7 water wells in her name, along with a masjid in her name! May Allah (SWT) reward you all, may He grant Nabra the highest level of paradise, and bestow His mercy upon her.

Peck Elementary School-Emergency Coat Drive

We love our global charity efforts, but it is also gratifying when we can come together and help children in our local community. When the administration at Peck Elementary School in Chicago noticed a drop in attendance, they were very concerned. The students were getting sick, and it turns out that the cold weather was to blame. Many of these children could not afford winter weather gear, so we stepped in to help remedy the situation. In all, over 400 coats, 2000 hats and 2000 gloves were donated!

Feed the Hungry

When we first launched this campaign several years ago, we were limited to the Chicago area. This year, our 3rd Annual Feed the Hungry campaign took place in 20 cities across the U.S., where dedicated volunteers gathered to make healthy lunches for the homeless. These meals were then either delivered to shelters, or personally handed to homeless people around the country. Each of our volunteer cities had a goal of 2,000-4,000 meals. Hundreds of volunteers across the country participated in this project and it is thanks to their hard work and dedication that this year was such a success!

Hand in Hand for Yemen

Noor Ali, a past Feed the Hungry leader for Bakersfield, CA, spearheaded this campaign. She came to us with the desire to help those starving in Yemen and set this project up with Pure Hands, a relief organization with an emphasis on Yemen. The aim of this campaign was to bring aid to the people of Lahij and Al Hudaydah, Yemen, who, for years, were suffering the consequences of a humanitarian crisis. Thanks to Noor's dedication and hard work, along with the generosity of all those who donated, 84 locally purchased food baskets were distributed to needy families in the region during the month of Ramadan. We commend the spectacular efforts of this young leader! May Allah always grant you success.

Refugee Ramadan Program- Heroic Hearts

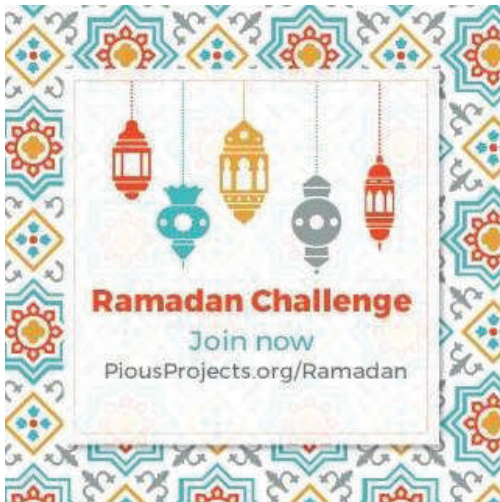

It is difficult for us to understand the plight of Syrian refugees. We see pictures, hear stories, and read news articles, but we cannot fully grasp everything that they have been through. And through all the devastation that they've survived, nothing stops them from taking part in the Holy month of Ramadan. Heroic Hearts created this campaign to make sure that our Syrian brothers and sisters in Al Atarib and Idlib who struggle to survive daily, would have food to break their fast. One donor sponsored 150 meals and in total, a little over \$17,000 was raised! We are truly grateful to all who participated in this special campaign, as not only did we break the fast of these refugees, but through doing so, we showed them that they have not been forgotten!

Ramadan Iftar for Inmates

Building Blocks of New Jersey created the Ramadan Iftar for Inmates program in order to provide for our Muslim brothers and sisters who are currently serving time. Unfortunately, these members of the Muslim community are largely forgotten during Ramadan. Imagine experiencing a Ramadan away from your loved ones, and not to mention the entire community. With just a \$1 donation, our brothers and sisters were able to break their fast with a hot meal, easing this difficult time and bringing them some comfort. In 2017, this campaign generated enough support to distribute 3,000 meals.

Ramadan Challenge

The Ramadan Challenge was created to give everyone the opportunity to give back during the Holy month in a simple way by allowing donors to set attainable donations for every day of the month. We all know the multiplied rewards for any good deeds done during the Holy month of Ramadan, and we also know that Ramadan was the month that the Prophet Muhammad ﷺ was most generous. We hoped that through this unique project, we could continue his legacy of generosity and maximize the rewards each day.

Each day of Ramadan was dedicated to a new campaign that primarily focused on food, construction, or community. Some campaigns included feeding orphans, helping to complete masjid renovations, feeding pilgrims in Mecca during the last 10 nights, supporting CAIR, providing Qurans to villagers in Mali, and much more.

Donors had the opportunity to sign up before the start of Ramadan, and were able to customize their donations. In the last 10 nights, the option to multiply donations was offered in the hopes of attaining more reward on the night of Laylat Al Qadr. We would like to thank everyone for participating in our first Ramadan Challenge and pray that every good deed during the month was accepted! We hope you will join us again for our Ramadan program next year inshaAllah.

Hajj Challenge

The Hajj Challenge was an opportunity to feed one person a day each of the 10 days of Hajj. Each meal cost \$5 and the funds went to purchase meals from a different country every day. To complete the challenge, users were expected to do a share of Udhiyah. We also challenged our users to refrain from cutting their hairs or nails the entire 10 days until Eid. We had a total of 457 participants sign up for the challenge!

EDUCATION

Yaqeen Institute

Founded by Sh. Omar Suleiman, the Yaqeen Institute is a non-profit research initiative established for the purpose of correcting problematic misconceptions about our community through education and open dialogue. In a time where the Islamophobia industry is being funded in the billions, this is an organization that is desperately needed. The idea is to wisely combat ignorance and hate with knowledge and truth via scholarly and well-researched articles and other modes of information. The Institute will serve as a comprehensive reference of free and accessible information provided by experts in Islam, and given to anyone who seeks answers.

DarusSalam Seminary and Campus Project

Imagine the Sadaqa Jariyah earned by someone who aided in the education of a scholar or in the construction of a Masjid. Alhamdulillah through this campaign, we have had many donors aid in both categories for Masjid DarusSalam in Chicago. Of their many programs, the Seminary program is dedicated to cultivating sincere students of knowledge and educating them on the sciences of Islam. We are pleased to have garnered funds for such a noble cause as well as for their expansion to comfortably run the Seminary program as well as their various other programs going on throughout the week.

Gift of Islam in Latin America

The Gift of Islam in Latin America campaign is a global initiative designed to educate the Latino community about our religion in their mother tongue through the IslamInSpanish organization. Media and other materials were created in Spanish and distributed with the aid of grassroots outreach. This campaign reached Latin communities around the world, outside of Latin America as well.

Dawah efforts are more important than ever in today's day and age, and we thank our donors for their generosity towards such noble causes!

Back to School Supplies

It is amazing how something as simple as a school bag can bring relief to those less fortunate. Often we take the opportunity to get an education for granted, let alone a backpack. Most children in need all over the world have a shared desire to go to school. And Alhamdulillah, 95 backpacks, along with essential school supplies, were purchased for children in need in areas of Jordan. Supplying these children with the necessary tools to succeed in school not only aids their education but provides them with hope!

Support Victims of Hurricane Harvey - Texas

In August 2017, Hurricane Harvey landed in Texas, wreaking havoc and leaving survivors in complete devastation. Many victims were left with nothing, and forced into the most unthinkable situations. We began collecting donations in order to help as much as possible with the recovery efforts. Through the generosity of many donors, we raised over \$20,000. We had a truck drive all the way from Chicago to Beaumont, TX as well as volunteers from Dallas to deliver aid in the city. 1400 cases of water, 450 backpacks, 480 blankets, 300 pillows, 196 air mattresses, 29 mattresses, 73 boxes of baby wipes and 45 boxes of diapers were distributed.

Heating Fuel and Blankets for Orphans/Needy

Imagine having fled your home with only the clothes on your back and settling into a refugee camp with little resources as winter approaches. Without heat or warm clothing to withstand the bitter cold, surviving such conditions is close to unbearable. Unfortunately, this is the reality for many refugee families around the world, including Syrian refugees living in Jordan. Alhamdulillah through this campaign, we raised enough funds to purchase 25 blankets and 7,000 liters of fuel for our Syrian brothers and sisters bearing the cold in refugee camps in Jordan.

With your help, we were able to keep countless families warm and provide them with the resources they needed to get through the winter!

Al Basar Eye Campaign/ Give the Gift of Vision to the Blind

The Al Basar Foundation, with the aid of its secretary general, Dr. Adel Rushood, seeks to bring essential eye care to regions where access to such is limited. After much planning, eye care camps were finally set up in Mali, Africa, where patients with various stages of vision issues, including blindness, were treated. On the team's last trip to Mali, our members were able to witness these camps and operations first hand. They witnessed thousands of people standing in line for an eye exam, which many have probably never had before. But they also witnessed many who walked out of an eye clinic with clear vision! Alhamdulillah, through the Al Basar Eye Campaign, funds were raised to provide an estimated 6000 exams and 512 operations. What a truly incredible gift!

OTHER CAMPAIGNS

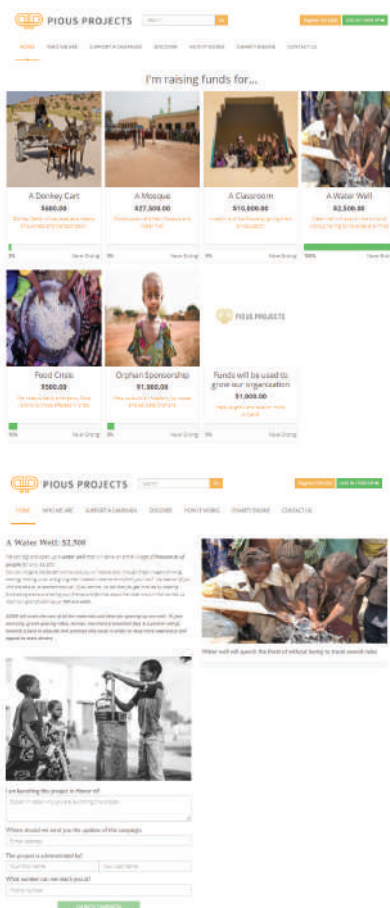

Admin Campaign

At Pious Projects, our main goal is to help those who are in need, whoever and wherever they are. Every penny is used towards relief efforts and bettering our world, one campaign at a time. That is why we pride ourselves on our 100% donation policy which stipulates that 0 admin fees will be taken out from any donation. The money donated to any campaign is used solely to fulfill the mission of that initiative.

Our organization relies mainly on the aid of volunteers. Any donations made to this particular campaign will be used for sustainability costs such as IT, website maintenance, event

publications, etc. Your generosity keeps us going. Together, we can bring hope, comfort, and change into the lives of those who need it most.

Personal Campaigns

Personal campaigns are the ultimate way for anyone to honor the memory of a loved one, or to simply earn Sadaqa Jariyah. We started this initiative because early on, we received many requests from family members who wanted to fundraise for water wells on behalf of their loved ones. We decided to make it simple to do so and wanted to give the opportunity to everyone who came onto the site.

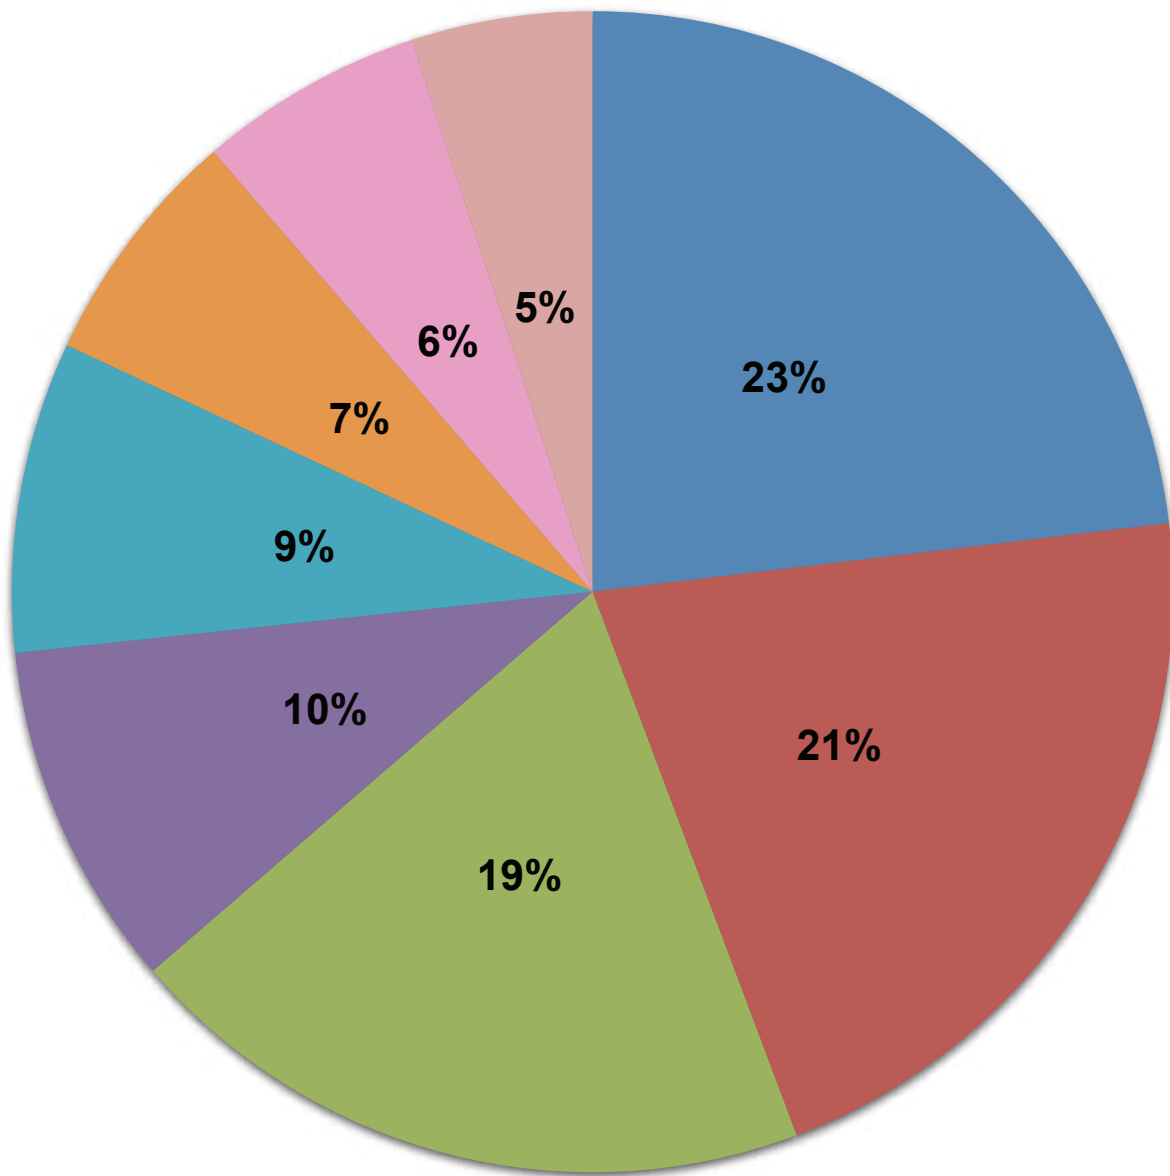

Those interested can visit our website and launch a personal campaign for either a water well or a masjid. In 2017, 47 personal campaigns were launched! And as always, all funds raised go directly to that project.

“JazakAllahu Khairan for everything. May Allah swt reward you all for making this possible and may he accept from us all. Ameen. “

“This is one of the best days of my life, what an amazing blessing that Allah gave us with this opportunity!! May Allah accept all of your deeds and efforts towards every project. Insha Allah we can work together on many more products.”

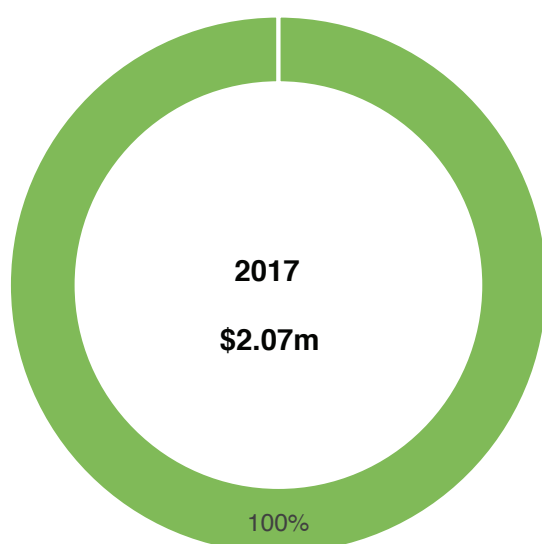

“Jazaki Allah khair for the work you do. Please send the team my salam and my appreciation”
